## 1. WELCOME

Congratulations on purchasing your new HS-9000 DECT. We are sure you will enjoy its wide range of features, and find the headset comfortable to wear and easy to use.

### HS-9000 DECT headset features

- Wideband audio for exceptional sound quality.
- Volume and mute controls.
- Intuitive headset multi-function button for easy call handling.
- LED and audio indicators.
- Advanced hearing protection with safetone™.
- Noise-cancelling microphone.

### HS-9000 DECT base features

- Headset recharge docking cradle.
- Visual call status indicators.
- Visual wireless connection status indicators.
- Mute indicators.
- Battery indicators.
- Voice-prompted configuration.
- Volume adjustment
- Port for HS Link adapter and remote handset lifter.

## 2.2. HEADSET OVERVIEW

### 2.3. BASE OVERVIEW

## 3. CONNECTING TO A DESK PHONE

### 3.1. CONNECT TO DESK PHONE

#### Option 1

Desk Phone without Headset Port:

This desk phone does not have a dedicated headset port.

1. On the desk phone, unplug the handset cable from the phone body.
2. Connect the handset cable to the port marked  on the base.
3. Plug the supplied telephone cable into the port marked  on the base.
4. Connect the telephone cable into the handset port on the desk phone.

#### Option 2

Desk Phone with Headset Port:

This type of desk phone has a dedicated headset port (usually at the back of the phone). These phones typically have a button on the front panel for switching between handset and headset.

1. Plug the supplied telephone cable into the port marked  on the base.
2. Connect the telephone cable to the headset port on the desk phone.

### Option 3

#### Desk Phone with Lifter:

the remote handset lifter manually lifts the desk phone handset to make or answer a call. For mounting instructions refer to documentation supplied with the lifter.

1. On the desk phone, unplug the handset cable from the phone body.
2. Connect the handset cable to the port marked  on the base.
3. Plug the supplied telephone cable into the port marked  on the base.
4. Connect the telephone cable into the handset port on the desk phone.
5. Connect the Lifter cable into the port marked **AUX** on the base.

### Option 4

#### Desk Phone with HS Link:

A HS Link adapter enables an incoming call to be answered or ended by the headset multifunction button.

Contact your local HS dealer to purchase a HS Link adapter for your specific desk phone.

1. Connect the HS Link adapter as shown in the adapter documentation supplied with the HS Link. On some phones the telephone cable will also need to be connected.
2. Call your connected desk phone using another phone to enable the HS Link adapter. Wait 10 seconds before answering the phone.

### 3.2. CONNECT POWER SUPPLY TO BASE

1. Plug the power adapter into the port marked  on the base.
2. Connect the power adapter to the main power socket.

### 3.3. DOCK THE HEADSET

1. Press the Multiple function button, it will be powered on after the LED light shines for 2 seconds. Press the Multiple function button again or dock the headset with the base, then lift the headset. The headset with the paired light  will light up when the headset and base are connected.
2. When docked correctly the headset battery will begin charging, if needed (LED will flash when charging ). Charge for 20 minutes or until the battery indicator on the base  is a steady green.
3. Clear the paired base: Press R+ at the back of the base, the battery charging status light will flash 3 times.
4. Renew the headset pairing: consistently press the PAGE switch for 5 seconds, the headset with the paired light  will flash to search for the headset. Consistently press the headset mute button until the headset status LED flashes, then the headsets are in paired status. Connection will be successful when the LED powers off at the same time.

## 4. CONFIGURING THE DESK PHONE AUDIO

Due to the large range of desk phone brands/models available, a clear dial tone must be set before using the HS-9000 DECT for the first time. Setting the clear dial tone will enable the HS-9000 DECT to function correctly with your specific desk phone. Additionally, it is also important to set the microphone volume for optimal sound quality.

### 4.1. SET A CLEAR DIAL TONE

1. Put on the headset.
2. Get a dial tone by pressing the headset button on the desk phone, or by lifting the desk phone handset.
3. Locate the clear dial tone switch on the back of the HS-9000 DECT base, as illustrated, and while listening through the headset for a clear dial tone, rotate the switch from A to G.
4. Determine the best switch position. The dial tone should be strong, clear and undistorted.
5. When the clear dial tone is set, press the headset button on the desk phone, or return the desk phone handset to the receiver.

## 4.2. SET THE MICROPHONE VOLUME

1. Put on the headset.
2. Get a dial tone by pressing the headset button on the desk phone, or by lifting the desk phone handset.
3. Make a test call. Call a friend or colleague to test your speaking volume. ensure the listener does not adjust their own volume.
4. Adjust the microphone volume using the microphone  + / - volume buttons, as illustrated, if your speaking volume is too loud or too quiet for the listener.
5. Adjust the receiver volume using the receiver  + / - volume buttons, as illustrated, if your listening volume is too loud or too quiet by the listener.
6. When the microphone volume is set, end the call.

## 5. HS-9000 DECT FEATURES

### 5.1. HEADSET MULTI-FUNCTION BUTTON

The multi-function button can answer calls and end calls using a combination of taps, double-taps or presses.

Function	Tap	Press hold
Answer incoming call	✓	
End current call	✓

End call	<ol style="list-style-type: none"> <li>1. Hang up desk phone.</li> <li>2. Dock the headset, or tap the multi-function call button.</li> </ol>	<ol style="list-style-type: none"> <li>1. Tap the headset button on the desk phone</li> <li>2. Dock the headset, or tap the multi-function call button.</li> </ol>	<ol style="list-style-type: none"> <li>3. Dock the headset, or tap the multi-function call button.</li> </ol>

## 6.2. SWITCHING BETWEEN PHONE AND HEADSET

### Switch from desk phone to headset

1. Lift headset from docking cradle.
2. Do not return desk phone handset to receiver, as this will hang up the call.

### Switch from headset to desk phone (without HS Link or Lifter)

1. Lift desk phone handset.
2. Dock headset, or tap the multi-function button.

### Switch from headset to desk phone (without HS Link or Lifter)

1. Lift desk phone handset.
2. Refer to specific desk phone documentation. In some cases a button must be pressed on the desk phone, while in others the switch from handset to desk phone will be automatic.

## 6.3. CONFERENCE CALL WITH MULTIPLE HEADSETS

The HS-9000 DECT is able to pair with four headsets in total for conferencing: one primary and three secondary headsets.

### Connect the headset:

1. Consistently press the PAGE switch for 5 seconds, the headset with paired light  will flash while searching for the headset, consistently press the headset mute button until the headset status LED flashes, then the headsets are paired. Connection is successful when the LED powers off at the same time.
2. Repeat procedure 1 to connect the four headsets.

### Conference call

1. Press the multiple function button to connect the headsets, after this the audio will be shared between them.
2. Dial to enter the conference call.

### Ending or leaving the conference

The headset user can hang up the phone call to end the conference. At the same time, all headset calls are ended.

## 7. TECHNICAL SPECIFICATIONS

### 7.1. HS-9000 DECT HEADSET

<b>Operating environment</b>	0°C to +40°C; Up to 95% Rh non-condensing.
<b>Call control</b>	Multi-function button support for answering calls, ending calls, rejecting calls, docking operations.
<b>Volume control and microphone mute</b>	Button controls on headset.
<b>Visual indicator</b>	LED indicates call status, pairing status, and more.
<b>Audio indicators</b>	Tones indicate incoming calls, low battery, volume level, microphone muting and more.
<b>Sound quality</b>	DSP noise reduction; echo cancellation; tone control; wideband and narrowband audio.
<b>Recharge</b>	While docked in the HS-9000 DECT Headset.
<b>Wireless standard</b>	(CAT - IQ) European DECT and U.S. DECT.
<b>DECT range</b>	For European DECT, up to 120 meters from HS-9000 DECT Headset base to headset. For U.S. DECT, up to 350 feet from HS-9000 DECT Headset base to headset.
<b>DECT frequencies</b>	US DECT: 1.92 - 1.93 Ghz. EU DECT: 1.88 - 1.90 Ghz.
<b>Wearing-styles</b>	Headband and ear hook
<b>Microphone boom arm style</b>	Long boom arm
<b>Speaker(s)</b>	Wideband speaker.
<b>Microphone</b>	Noise-cancelling microphone.

## 7.2. Headset Battery

<b>Battery type</b>	Lithium Ion-polymer.
<b>Battery capacity</b>	300 ma/h, typical.
<b>Battery talk time</b>	Up to 8 hours.
<b>Battery lifetime</b>	Minimum 1000 charge cycles.
<b>Battery standby time</b>	At least 36 hours.
<b>Operating temperature range</b>	-20°C to +60°C.
<b>Battery charge time</b>	20% charged in less than 20 minutes. 50% charged in less than 45 minutes. Fully charged in less than 3 hours.
<b>Battery shelf life</b>	Headset battery stays charged for 6 months in the off state, before recharging is required.

## 7.3. HS-9000 DECT BASE

HS-9000 DECT base meets the following specifications.

<b>Dimensions</b>	97mm×75 mm×120 mm
<b>Wireless standard</b>	(CAT - IQ) European DECT and U.S.DECT.
<b>Operating environment</b>	-0°C to +40°C; Up to 95% Rh non-condensing.
<b>Recharge cradle</b>	Fits supplied HS-9000 DECT series headset.
<b>Desk Phone connections</b>	RJ-11 for handset, RJ-11 for phone body (or headset port), RJ-45 for AUX (for HS Link or lifter).
<b>Clear Dial tone switch and microphone volume switch</b>	Electromechanical switches. Clear dial tone switch and microphone volume levels set manually.

## 7.4. PRODUCT DISPOSAL

### Safety

For your own safety, this product should only be used with CE and RoHS approved equipment. Using this headset with non-approved equipment would void the warranty of this product.

### Disposal of your product

Municipal waste stream. Old appliances must be collected separately in order to optimise the recovery and recycling of the materials to reduce the impact on human health and the environment. The crossed out "wheeled bin" symbol on the product reminds you of your obligation that when you dispose of the appliance, it must be separately collected. Consumers should contact their local authority or retailer for information concerning the correct disposal of their old appliance.
