

# HS-1000

## corded call center headsets

The trustworthy partner in everyday communication

### PRODUCT DESCRIPTION:

The HS-1000 is the entry-level model among the hameco corded headsets. When developing this headset, we took into consideration those who are looking for the most economical solution – without compromising quality. It is a Plug&Play device ready for use immediately after connecting. The HS-1000 headset was developed for use in an office or home environment using a USB cable. It is ideal for use with laptops or softphone applications. The product's features include crystal clear audio and hearing protection. The earpiece and microphone both have a foam cushion making it comfortable, and also easy to replace. The microphone boom arm and headband are adjustable. The volume and mute functions are located on the USB controller found on the cord of the headset.

HS-1000D-USB duo version

HS-1000M-USB mono version
